Summary

Full Stack Developer with professional experience in Core PHP, ASP.NET Core (C#), React.js, MySQL, JavaScript, and Bootstrap. Experienced in developing full-stack web applications, RESTful APIs, database-driven systems, responsive user interfaces, payment integrations, third-party APIs, AJAX-based applications, and admin management systems.

Experience

Perfect Software

Full Stack Developer

Nadiad, Gujarat

April 2026 – Present

- Working as a Full Stack Developer with experience in Core PHP 8, MySQL, JavaScript, Bootstrap 5, HTML5, CSS3, AJAX, and PDO
- Developing and maintaining full-stack web applications, including frontend interfaces, backend business logic, database integration, and admin panels
- Integrating ABDM (Ayushman Bharat Digital Mission) APIs with Hospital Management Software for digital healthcare data exchange and interoperability
- Working with REST APIs, JSON, third-party API integrations, and Razorpay Payment Gateway
- Experienced in MySQL database design, SQL queries, CRUD operations, session management, and responsive web development
- Working with Git, GitHub, XAMPP, Composer, VS Code, and Postman for application development and testing

ScriptMatrix Private Limited

Full Stack Developer

Vadodara, Gujarat

Feb 2025 – Feb 2026

- Built and maintained CRM modules using ASP.NET Core (C#) and MySQL across Agile development cycles
- Designed and implemented RESTful APIs for mobile and web applications with structured business logic and error handling
- Developed responsive cross-browser user interfaces using HTML5, CSS3, Bootstrap 5, and JavaScript
- Worked with MySQL and SQL Server for database design, queries, CRUD operations, and application data management
- Participated in code reviews and followed development best practices including Git workflows and clean architecture principles
- Provided client support and resolved production issues to maintain application stability and user satisfaction

Education

Gujarat Technological University (GTU)

B.E. – Information Technology — SVIT, Vasad

Vasad, Gujarat

2021 – 2025

Projects

Yamuna – Online Food Ordering & Management System | Core PHP 8.0, MySQL, Bootstrap 5, JavaScript, AJAX

- Developed a full-stack food ordering and management system using Core PHP, MySQL, Bootstrap 5, JavaScript, AJAX, and PDO
- Implemented customer ordering, cart, add-ons, pickup scheduling, prepaid payments, and admin order management
- Integrated Razorpay and developed AJAX order notifications, receipt generation, PDF download, share and printing functionality

BuilderOne CRM | React.js, ASP.NET Core Web API, C#, MySQL

- Developed a builder-focused CRM for lead, follow-up, payment, and property management
- Built RESTful APIs with ASP.NET Core and integrated responsive React frontend with MySQL database
- Implemented authentication, role-based access, dashboard analytics, and status-wise lead tracking
- Deployed application on Render with cloud-hosted MySQL integration

E-Commerce Real Estate Platform | *Core PHP, MySQL, HTML5, CSS3, JavaScript, Bootstrap 5*

- Developed a full-stack real estate platform using Core PHP, MySQL, Bootstrap 5, JavaScript, HTML5, and CSS3
- Implemented property listings, details, search/filtering, dynamic content management, and responsive UI

Technical Skills

Programming Languages

- PHP 8, Core PHP, C#, JavaScript (ES6+), SQL, HTML5, CSS3

Frameworks & Libraries

- ASP.NET Core, .NET MVC, React.js, Bootstrap 5, Entity Framework

PHP Technologies

- PDO, Session Management, AJAX, CRUD Development, Composer

APIs & Architecture

- RESTful API Design, JSON, API Integration, Razorpay Integration, MVC Pattern, OOP, SOLID Principles

Databases

- MySQL, MariaDB, SQL Server, Query Optimization, Schema Design, Database Relationships

Developer Tools

- Git, GitHub, XAMPP, Composer, Visual Studio, VS Code, Swagger / OpenAPI, Postman

Methodologies

- Agile / Scrum, SDLC, Testing & Debugging, CI/CD (basic)

Languages

- English, Hindi, Gujarati
